PRESS RELEASE

**Blue Cod Technologies Spreads their Wings  
Expanding the BPO Policy Processing Center to another location**

Marlborough, MA, October 16, 2008 – **Blue Cod Technologies, Inc.** of Marlborough, MA is pleased to announce the expansion of their Business Process Outsourcing (BPO) department to a new location at 500 Donald Lynch Blvd. in Marlborough, Massachusetts. This expansion speaks to the record breaking growth that Blue Cod has experienced this year.

“This new state of the art facility is being built specifically to suit the needs of our staff and our customers,” said Jon Hughes, Director of BPO. “With updated technology and triple the physical space, we can continue to exceed the high service level standards that we maintain for our growing client base”

The new space is approximately 20,000 square feet and will allow the BPO to build a more efficient physical layout. New technology will be installed to assist Blue Cod’s Customer Service team and ever expanding CAT Team monitor weather patterns to better plan our staffing needs for major events. The new BPO Center will also act as a “demonstration center” for customers to see the work up close and in action.

Due to the nature of the property and casualty business and the need to provide redundancy, the BPO will still maintain a significant footprint in Blue Cod’s main location at 295 Donald Lynch Boulevard. The BPO Department consists of five groups:

- Premium Services,
- Customer Service,
- Policy Processing,
- Document Services,
- Print and Distribution.

**About Blue Cod Technologies, Inc.**

Blue Cod Technologies, Inc. delivers innovative software solutions and services for organizations in the property and casualty industry. Through our specialized products and services, we provide insurance companies with systems strategy and architecture, custom-application development, enterprise systems integration, and web-extension of enterprise systems. Our hosted policy administration solution and BPO services offer a broad array of options to start-up carriers and companies considering venturing into new markets.
