

INSTALLING ISSUENET

Launch Internet Explorer and type in the path

<http://support.bluecod.net/IssueNetCentral/>

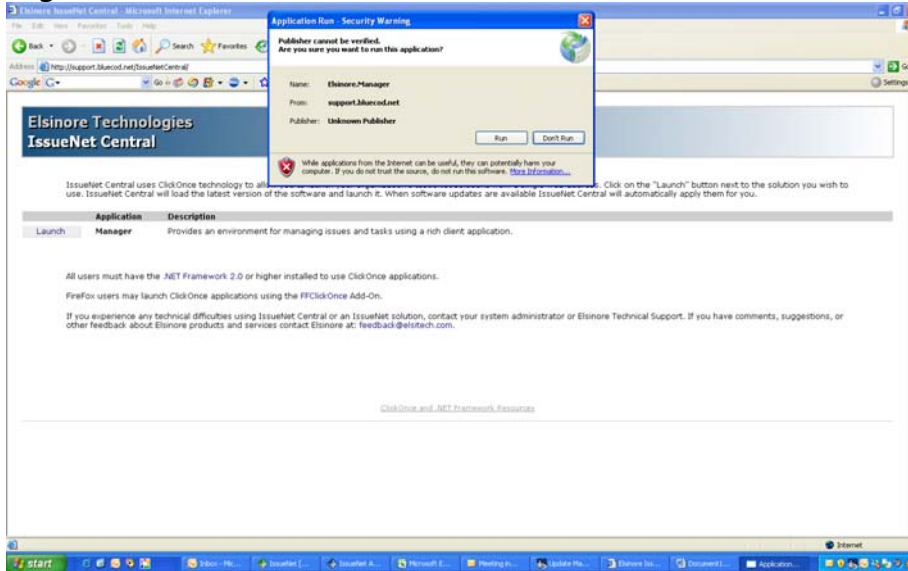

Or go to www.bluecod.net and click on "IssueNet" tab

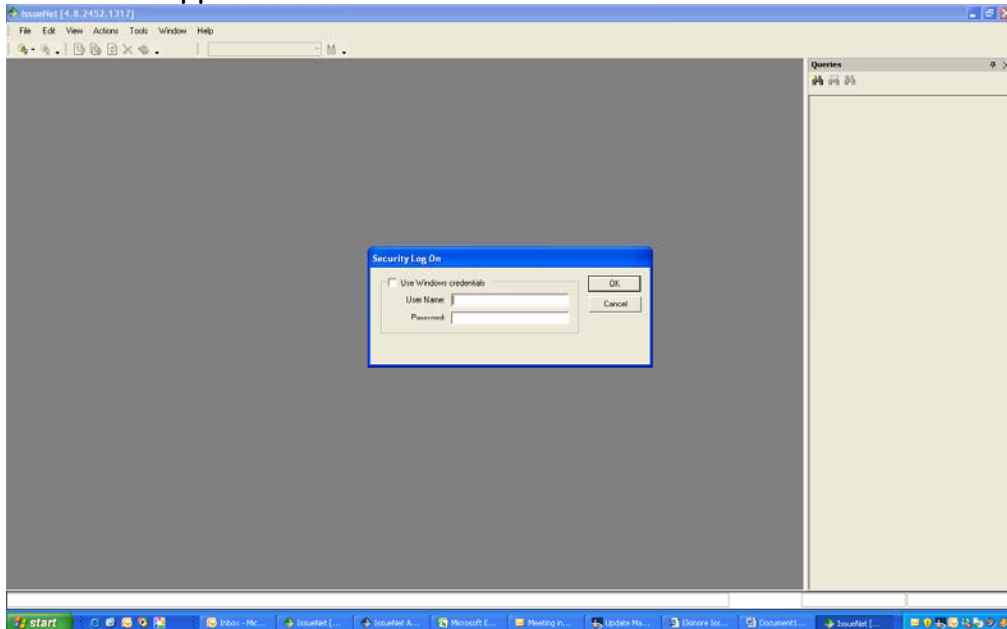

Click on 'Launch' Manager and the 'Application Run' window will appear asking to run this application.

Click 'Run' and wait for the application to launch (first time launching this might take a minute).

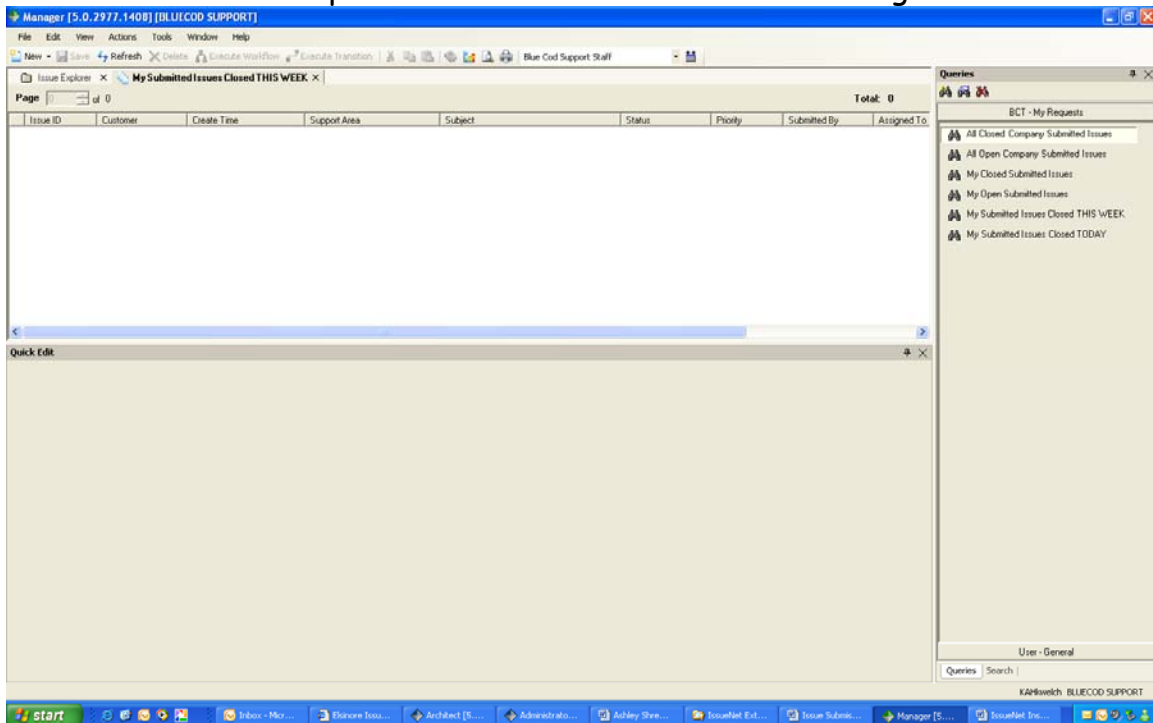

IssueNet Application window:

Type in your username and password and click 'OK'. Your first time logging in will take a couple seconds.

Once logged in, the application will look similar to the screen shot below. Please reference the provided documentation for submitting an issue.

If you have any problems or questions, please contact Thul (or Karen).
