New Mexico Property Insurance Program Enlists Blue Cod in 2010

Marlborough, MA, December 21, 2009 – **Blue Cod Technologies, Inc.** of Marlborough, MA has signed an agreement with **New Mexico Property Insurance Program** (New Mexico FAIR Plan) to provide the program with both Information Technology Outsourcing (ITO) services and limited Business Process Outsourcing (BPO) services in 2010.

“I think we have a perfect match with the New Mexico FAIR Plan,” said Darren Horn, Blue Cod’s Director of Business Development. “Our experience with similar organizations in other states pointed out a number of unique needs for their type of business. I am pleased that they chose us and look forward to a long term relationship with them.”

Blue Cod will implement our hosted policy processing solution, which includes our AllOne® Suite of productivity and work management products. Blue Cod will maintain ongoing support for these applications. As part of the agreement, Blue Cod will provide print and distribution services to the program, including policy printing, mailing, and billing services. Blue Cod currently supports long term customers Connecticut FAIR Plan and the Maryland JIA under similar programs.

New Mexico Property Insurance Program is the underwriting association for the FAIR (Fair Access to Insurance Requirements) Plan in New Mexico. They focus on both personal and commercial dwelling and fire insurance as a not-for-profit association located in Albuquerque, NM.

About Blue Cod Technologies, Inc.

Blue Cod Technologies, Inc. delivers innovative solutions and services for organizations in the property and casualty insurance industry. Our hosted policy administration solution and broad spectrum of BPO (Business Process Outsourcing) services offer a complete solution for start-up carriers and companies considering venturing into new markets. Through our specialized products and services, we provide insurance companies with rapid deployment of new insurance products, enhanced disaster recovery capabilities, custom-application development, enterprise systems integration, and web-extension of enterprise systems.
