Blue Cod Opens Regional Service Center in Savannah GA

Marlborough, MA, June 15, 2010 – **Blue Cod Technologies, Inc.** of Marlborough, MA, announces the opening of a regional center in Savannah, GA. The Savannah staff of property and casualty insurance professionals brings significant experience to one of the fastest growing regional markets in the country.

The Savannah office will focus on providing a full range of business process outsourcing (BPO) services to Blue Cod's existing customers and to Blue Cod's growing list of Southeastern customers, while adding a third redundant center for our business continuity services. Blue Cod plans to continue their efforts of making their presence known in the Northeast, Southeast and ultimately to the Midwest and Western parts of the country.

"We're extremely excited about our new Savannah team," said Simon de Montfont Walker, Vice President of Operations at Blue Cod. Their deep insurance back-office experience and expertise in managed general agent (MGA) operations will allow Blue Cod to better service this strategic region as well as the MGA marketplace."

Blue Cod's BPO offers property and casualty carriers across the nation the resources to outsource many of their business processes, saving time and money. These offerings span a wide range of processes designed to address each of our customers' specific needs across their back office operating and technical environments

About Blue Cod Technologies, Inc.

Blue Cod Technologies, Inc. delivers innovative solutions and services for organizations in the property and casualty insurance industry. Our hosted policy administration solution and broad spectrum of BPO (Business Process Outsourcing) and information technology outsourcing (ITO) services offer a complete solution for start-up carriers and companies considering venturing into new markets. Through our specialized products and services, we provide insurance companies with rapid deployment of new insurance products, enhanced disaster recovery capabilities, custom-application development, enterprise systems integration, and web-extension of enterprise systems.
